

ADMINISTRATIVE PROCEDURES MANUAL

New Humble Community School

September 2022

PREFACE

This Administrative Procedures Manual is designed to be the primary written source of administrative direction for the Division. It is designed to be entirely consistent with the Board Policy Handbook, and is an extension of policy in the form of procedures. This Manual may make further reference to other detailed administrative documents that have been developed to provide specific guidelines on selected matters.

There are five categories in which administrative procedures are placed in the Manual. The categories are:

- 100 General Administration
- 200 Instructional Programs and Materials
- 300 Students
- 400 Personnel and Employee Relations
- 500 Business Administration

Procedures placed in the 100 section are those of a general administrative nature or those which have applicability to at least two other categories in the Manual. The procedures in 200, 300, and 400 are specific to each of the titles. The Business Administration procedures include finance, facilities, and student transportation matters.

A logical flow of procedures is attempted in the categories. For example, criteria for student admission is followed by attendance area requirements, by various safety considerations, by the maintenance of records, by daily attendance, by supervision and discipline, and lastly, by evaluation procedures.

Gaps in the numbering sequence facilitate the insertion of additional administrative procedures that may be developed at a future time.

It is to be noted that the electronic versions of both the Board Policy Handbook and the Administrative Procedures Manual as well as any handbooks/manuals referenced are always the most current documents available.

THREE YEAR EDUCATION PLAN

Background

The Charter Board is committed to ensuring that we have created a strong, sustainable, and results-oriented education plan. This will ensure that all students have equitable opportunities to acquire the knowledge, skills, and attitudes they need to be self-reliant, responsible, caring, and contributing citizens. Planning ensures resources for education are used in the best possible ways to meet the educational needs of Alberta's young people.

The Charter Board's plan outlines priorities for student learning in the School, guides budget development, and forms the basis for reporting on progress and achievement. The Charter Board is required by Alberta Education to prepare an education plan that aligns with the Alberta Education's Three Year Business Plan and focuses on student learning over a three year period. Plans are updated annually so that, as one year is completed and another is added, the Plan continues in a three year time frame.

Procedures

1. Planning Guidelines

- 1.1. The vision, mission, values, and beliefs in the School will provide overall direction for system planning. The actions and endeavours of the Charter Board and the School must be guided by sound planning processes.
- 1.2. The planning process will recognize local priorities identified during the planning process.

2. Three Year Education Plan

- 2.1. The Three Year Education Plan will be developed following Alberta Education's "Developing your Education Plan" document, and will align with Alberta Education's Three Year Business Plan and must include the following elements: an accountability statement, all provincial goals, related outcomes, performance measures, targets and strategies, a budget summary, a summary of facility and capital plans, a description of how parents were involved, and the communication plan. The Three Year Education Plan may include contextual information and locally developed goals, outcomes and strategies.
- 2.2. The Three Year Education Plan will comprise the elements required by the province and other local entities.
- 2.3. The Three Year Education Plan will be updated annually with provision for input into the revision process from the School Council, parents, staff, students, and community stakeholders.
- 2.4. The Three Year Education Plan will be submitted by the Superintendent to the Board with the recommendation for approval.

- 2.5. The Three Year Education Plan will be posted on the school website by May 31.
- 2.6. Progress reports including areas of success and areas for improvement on the education plan may be presented by the Superintendent to the Board as data becomes available.

ANNUAL EDUCATION RESULTS REPORT

Background

Accountability is the obligation to be answerable for the performance and results of one's assigned responsibilities. The Charter Board recognizes its responsibility to keep stakeholders informed about accomplishments and work toward goals.

The Charter Board will keep its school community and the public informed of the overall results achieved in the School through publishing and distributing an Annual Education Results Report.

Procedures

1. The Superintendent will develop an Annual Education Results Report in accordance with Alberta Education requirements. The Superintendent will submit a draft document to the Charter Board by October 31 and a final document by November 30 for approval. The Charter Board will submit the Report to the Minister by November 30 of each year.
2. The Annual Education Results Report (AERR) reports on the school's Three Year Education Plan and includes the following components: an accountability statement; the Accountability Pillar Overall Summary; performance measure results; a summary of financial results; a summary of capital and facilities projects; how parents were involved; and the communication plan.
3. The Annual Education Results Report will contain the results on mandatory and optional measures gathered through the year from such activities as ongoing reviews, evaluations, surveys, planning sessions and workshops.
4. The format for reporting optional measures and additional information in the Annual Education Results Report will be determined by the Superintendent.
5. The Annual Education Results Report will be posted on the School website by November 30 of each year.
6. The Charter Board shall use the Annual Education Results Report for information in the planning and policy making cycle and make adjustments to its goals as necessary.
 - 6.1 Results must be used to create improvement actions.
 - 6.2 Any evaluative approach must be open and easily understandable.
 - 6.3 Any evaluative process is to include the ability to disaggregate results to identify high and low performing groups/sites/factors.
 - 6.4 Any long-term evaluative processes are to be stable over time.

6.5 Results will not be used to rank schools, staff or programs.

FUNDRAISING SOCIETIES

Background

The School may have Fundraising Societies, separate and distinct from the School Council. Fundraising Societies provide a means for parents and community members to provide additional financial resources and support to the School. A Fundraising Society is a self governing legal entity incorporated under the Societies Act or Part 9 of the Companies Act.

Procedures

1. The main role of the Society is fundraising, sometimes engaging in fundraising endeavours that require a gaming license from the Alberta Gaming and Liquor Commission, such as bingos, casinos, or raffles. A Society has no authority to advise or consult for school-based decision-making purposes.
2. A Society is a self-governing legal entity, with the authority and responsibility to make necessary decisions to manage its operations and activities.
3. The Society will have a Board of Directors, chosen according to the by-laws/operating procedures established and maintained by the Society.
4. There may be more than one Fundraising Society at a school.
5. Fundraising Societies must present an annual Audited Financial Statement to members at an annual general meeting, an annual report to Corporate Registry, specific reports to the Alberta Gaming and Liquor Commission, and other annual reports as required by the governing legislation. There is no duty for the Society to report to the Corporate Board.
6. A Fundraising Society has its own bank account and accounting records.
7. The Charter Board's liability insurance does not extend to a Society and its Directors as the Society is its own legal entity, separate and distinct from the School. Even though the Societies are acting on behalf of the Charter Board, The Charter Board does not directly control their activities. A Society has its own executive which makes decisions on behalf of the group. Societies may choose to purchase their own liability insurance.

BUS AND SCHOOL OPERATIONS IN INCLEMENT WEATHER

Background

The Charter Board is responsible for ensuring that the School shall remain open to students during the times and dates established by the Charter Board, unless under extreme circumstances. The responsibility for the safety of children who are required to travel on school buses is shared by the transportation provider, the Charter board, its staff, parents, and students. The safety of students shall not be placed at risk by requiring the operation of school buses during inclement weather.

Procedures

1. The transportation provider will establish and follow guidelines for safe bus operation, including weather and road factors. The transportation provider will notify all families of bus cancellation or interruptions with as much notice as possible. The Charter Board will also share this information in a timely manner.
2. In circumstances of inclement weather, the School will remain open to students even if any or all school buses are not operating. When attendance on these days is low, appropriate alternative education experiences will be provided rather than the regular curriculum. These may include enrichment and remediation.
3. Students absent when buses are not running will be marked excusably absent and will not suffer any penalties for school attendance award programs.
4. All students riding on school buses must wear, which is preferable, or carry with them, proper clothing appropriate for the weather conditions. All students riding on school buses during the winter months shall be required to wear winter footwear and outerwear, and to carry with them winter headgear and gloves or mittens, effective November 1 to March 31. It is the responsibility of the parents to ensure that their children comply with the requirements.
 - 4.1. If a student is not wearing, or does not have in their possession, appropriate clothing suitable for the weather conditions the bus driver shall advise the parent, Principal, and document the discussion. In a situation that the Principal determines to be of significant risk to the student he/she may decide to keep the student at the School until they have appropriate clothing or the parent picks them up.
5. Under extreme conditions, the Superintendent may close the school. All efforts will be made to communicate this decision to families in a timely manner.

ACCEPTABLE USE OF TECHNOLOGY AGREEMENT

Background

The Charter Board encourages the responsible use of technology devices and contemporary digital tools in our School to assist with instruction and learning. Therefore, all staff are eligible for network services. These technology devices, digital tools and services include hardware, internet electronic mail (email) and/or digital collaboration, access to cloud-based services for documents and other educational activities. As appropriate, staff may be provided access to other business or educational services. A detailed Technology Code of Conduct clearly articulates the responsibilities of all members and stakeholders. Staff members and substitute teachers need to provide informed consent before access is provided to network services.

Access to digital services are provided primarily through access to Windows-based and cloud-based services with a provided login to the Microsoft Windows servers and Google-based services that connect to the Internet. Many teachers will also choose to utilize other educational digital resources and activities designed to meet educational goals. Access to these services are also governed by the Code of Conduct for Staff.

Teachers are responsible for ensuring students are adequately prepared and informed before they utilize hardware, online tools, and digital learning environments through specific instruction and reminders around Digital Citizenship practices. This is to be reviewed each year as students move from grade to grade in order to emphasize responsible hardware use and responsible online behaviour. Despite Canada's Anti-Spam Law and the School's best technical efforts to block offensive, inappropriate, suggestive, or otherwise obnoxious email (SPAM), staff may still have the potential to receive these at times. Through our School approach to proactively providing access to Digital Citizenship professional development, staff are also cautioned to be thoughtful before providing any personal information over the Internet through email or other social communications from home or from school-based technologies. To obtain an account within the School network services, the Code of Conduct and related School procedures or Charter Board policies around acceptable behaviours needs to be reviewed and understood by each staff member or substitute teacher. The following signed application is required as part of this agreement and remains in effect during present and future employment with the Charter Board.

Administrative Procedure 142

CITIZENSHIP IN A DIGITAL AGE

Background

As the School commits to providing anywhere/anytime learning opportunities, it is critical that teachers and students are familiar with the responsibilities of being digitally connected citizens. Teachers must be aware of the impacts of student participation in the digital world so that they can recognize “teachable moments” that arise as students explore and create in an online environment. Students must become aware of the benefits and risks that are associated with digital interactions and that ultimately they themselves must be able to make responsible choices and decisions as they navigate and interact within the digital world. Staff and students in the School are expected to become responsible citizens in a digital age.

In the School, this behaviour is consistent with the existing Administrative Procedure 140 – Information Technology Use, Administrative Procedure 140 Appendix – Acceptable Use of Technology Agreement, Administrative Procedure 142 – Citizenship in a Digital Age, Administrative Procedure 145 – Use of Personal Owned Devices, and Administrative Procedure 350 – Student Conduct. It is also consistent with the “Nine Elements of Digital Citizenship” (found at DigitalCitizenship.net). This is also known as digital literacy.

Definitions

A digital citizen is an individual who interacts with other individuals using digital tools and resources such as computers of varying types and the internet as a means to connect to other people and interact with them using a variety of means such as email, blogs, websites, and various social media. The digital citizen is aware of and practices proper behaviours and socially accepted conventions in these online interactions. A digital citizen is a person who has developed the skills and habits that promote positive interactions with others in the digital world.

Digital citizenship education is planned instruction of staff and students on the proper use of digital resources and technologies to develop skills and behaviours that enable them to become digital citizens who interact with others online in a manner that is consistent with the Charter Board policies and administrative procedures.

Procedures

1. The Principal will ensure that the school will have in place a plan for professional learning to enable the staff to provide grade appropriate instruction that will support the development of responsible digital citizens.
2. Teachers shall demonstrate and model digital citizenship best practices and provide appropriate instruction for their students.
3. The Principal will ensure that the school will have in place a plan for grade appropriate instruction that will support the development of responsible digital citizens.

4. Students and staff will be responsible and accountable for their online behaviour and conduct.
5. Staff and student online practices shall be consistent with Administrative Procedure 140
Appendix – Acceptable Use of Technology Agreement.

USE OF PERSONAL COMMUNICATION

Background

Openness to new and future technologies and their educated use create opportunities for many constructive and positive uses that can aid the instructional process. Further, regulated use of some personal communication devices in the school and community may contribute to the safety and security of students and staff. However, unregulated use of such devices may pose a risk to personal safety; may disrupt instruction; may invade personal privacy; and may compromise academic integrity.

The purpose of this administrative procedure is to establish clear guidelines for the appropriate use of cell phones and other personal communication devices in order to maintain a focused and productive learning environment while ensuring the safety and well-being of our students.

This applies to all students at New Humble Community School during school hours, on school grounds, and at school-sponsored events unless otherwise specified

COMMERCIAL ELECTRONIC MESSAGES (ANTI-SPAM)

Background

Electronic messaging is one of the ways the School regularly communicates with parents, students, and staff. Generally, communications are limited to information sharing but occasionally, communication may encourage participation of a commercial nature including an expectation of profit, such as fund raising. Both email and website postings, and occasionally voice messages to telephones, are the electronic means for the Division or a school to send and receive messages.

Procedures

1. The Principal will advise parents through the student registration form (Form 300-1) and a posting to the website that the School communicates essential information electronically to parents and students.
 - 1.1 Parents will be asked to provide an email address, which the School will understand, is express consent to send Commercial Electronic Messages (CEMs).
 - 1.2 Parents will be provided with an email address, school phone number and contact name, to unsubscribe at any time.
 - 1.3 The student registration form will also state that explicit consent to send CEMs continues until the parent unsubscribes, or two (2) years after the student graduates – whichever comes first.
2. The Principal will advise staff that the use of emails is primarily to share information where there is no expectation of profit. When the CEMs have an expectation of profit, the Principal must approve staff access to the email lists of parents, vendors, donors and supporters.
3. Only those persons or businesses with whom the School has explicit consent or implied consent through an ongoing relationship may be contacted by email when the expectation is for profit. Fund-raising is an example of a for-profit CEM.
4. The School does not share its email lists with external organizations or persons.
5. All CEMs from staff, or on behalf of the School, and/or using the School email system, must contain the unsubscribe notice.

I would like to unsubscribe from receiving:

- 5.1 All messages from the New Humble Community School.
- 5.2 All promotional messages from the New Humble Community School. I will continue to receive notification consisting of information about the programs, events and activities.

Procedures

1. Information releases, which accurately communicate the Charter Board's business to the public, may only be issued by persons authorized by the Charter Board as per Policy 5 – Role of the Charter Board Chair.
2. The Superintendent shall approve all information released to the media from the School.

COMMUNICATING CONCERNS AND GRIEVANCES

Background

The Charter Board shall hear appeals regarding matters specified in the Education Act. These and other concerns or questions can be communicated as described below.

In essence, it is desirable that we all deal with questions, issues and concerns at the level at which they are occurring. The Charter Board and School staff are committed to communicate resolutions and decisions back to stakeholders. In general, when making suggestions or raising questions and concerns: Focus on a positive outcome – we are all in this together! Remember that resolving issues does not always mean “getting your own way.” Assume that everyone is acting out of good will and doing their best. If you have questions or concerns, communicate them directly to the person involved. If you are not satisfied with the response, speak to that person’s supervisor. Avoid gossip. Be practical and solution-oriented.

Procedures

1. If you have a question or concern regarding the actions/decisions of a School staff member, discuss the matter with the staff member directly. In the event that the matter is not satisfactorily resolved, discuss it with the Principal.
2. If you have a question or concern regarding the actions/decisions of a bus driver, discuss the matter with the bus driver directly (not when the driver is transporting students). In the event that the matter is not satisfactorily resolved, discuss it with the Transportation Coordinator.
3. If you have a question or concern regarding the actions/decisions of the Principal, discuss the matter with the Principal directly. In the event that the matter is not satisfactorily resolved, discuss it with the Superintendent.
4. If you have a question or concern regarding the actions/decisions of the Superintendent, discuss the matter with the Superintendent directly. In the event that the matter is not satisfactorily resolved, discuss it with the Charter Board Chair.
5. If you have a question or concern regarding the actions/decisions of the Charter Board or Charter Board Chair, discuss the matter with the Charter Board Chair directly. In the event that the matter is not satisfactorily resolved, discuss it with the Superintendent and the Charter Board Chair.
6. If you have a question or concern regarding the actions/decisions of the School Council, discuss the matter with the School Council Chair directly. In the event that the matter is not satisfactorily resolved, discuss it with the Principal and the School Council Chair.

7. In Summary, who to contact if there is a problem or concern: Sometimes it is unclear who parents are to contact if there is a particular question or concern. Generally, parents are to begin by contacting the staff most directly involved – the classroom teacher for school matters, the bus driver for bus matters. If the matter is not resolved, follow up as indicated above. Contact can be by way of email, letter, phone or video conference. A conversation over the phone or by video conference is always a good way to begin the conversation to clear up any questions or misunderstandings; written communication ensures that your views are accurately represented and interpreted. Please remember that email can be very public, and is best not used for sensitive (personal) issues. If you would like to make a presentation to the Charter Board, please contact the Board Chair, or one of the Charter Board members. You can call the main phone number of the School (780-985-3211) and ask for an email address to contact the Charter Board.

Background

The Superintendent has been given the responsibility to ensure positive external and internal communications are developed and maintained. Proper protocol is to be followed for events organized by the Charter Board or the School.

The success of a Charter Board or school event depends largely on good planning, as well as having a defined agenda and purpose for the event. If the event is well planned protocols are to flow smoothly.

6. Directors are to be introduced at all times.
7. Provision is to be made for Directors and other important guests to be greeted by staff or students.

VISIT PROTOCOL

Background

The Superintendent has been given the responsibility to ensure positive internal and external communications are developed and maintained. Proper protocol is to be followed for visits that occur within the Division.

Procedures

1. Royal and Other Dignitary Visits

- 1.1 While rare, schools occasionally may be included in royal visits (including those of Canada's Governor-General and/or Alberta's Lieutenant Governor); visits by the Prime Minister or Premier; senior cabinet ministers; ambassadors; or other prominent dignitaries. In such circumstances, the formal protocol of either the Government of Canada or Province of Alberta takes precedent. Information on proper protocol in these special circumstances can be obtained from the Government of Alberta. The Superintendent must be contacted in these instances.
- 1.2 In these circumstances, it is expected local event organizers will ensure Directors are properly recognized and included in the event whenever possible.

2. Special Visits

- 2.1 The Charter Board, in recognizing its responsibilities to share educational experiences, welcomes visitors to the School.
- 2.2 Visits to the School by persons from other school authorities shall be arranged by such officials as the Superintendent may appoint. Such visits will be arranged in consultation with the Principal, and the teachers concerned.
- 2.3 The Superintendent will extend to visitors, at Charter Board expense, such courtesies as desirable.

3. General Visits

- 3.1 All visitors to the School are expected to make their presence known to the Principal, and display visitor identification at all times.
- 3.2 Signs indicating this expectation, and the direction to the school office, are to be posted at each unlocked entrance, and at other visible points in the School.
- 3.3 The Principal determines the right of access to the school. The Principal may have to restrict or refuse permission for an individual or group to visit the school.

SCHOOL VISUAL IDENTITY

Background

The School's visual identity program is one of the first points of contact that the public has with the Charter Board. The organization's visual identity tells a lot about who we are as an organization and plays a key part in defining our School to our public. The visual identity program also establishes the 'look and feel' of who we are and what we represent. The School's corporate logo is an integral part of our visual identity program and aligns closely with the vision, mission, philosophy and guiding principles in telling our story to broad public audiences.

A key measure in defining the success of the School's corporate branding is the extent to which we are able to achieve consistency across all communications and marketing platforms. Consistent execution of the School's visual identity (including logo) will be necessary in all forms of print and digital communications, social media, web-based communication, corporate advertising, and building signage.

Procedures

1. All representations of the School's visual identity in any internal or external communications resource must follow the School's approved Visual Identity guidelines (Appendix).
2. The Superintendent is responsible for ensuring the School's Visual Identity guidelines are followed by the staff and external third-party stakeholders.
3. The Logo is to be used for stationary, forms, display, and lapel pins to promote the visual identity of the School.
4. Metal pins will be provided in reasonable quantities to Directors and the Superintendent for promotion of the School, recognition of guests, etc. Distribution of pins shall be under the direction and discretion of the Superintendent.
5. Various types of clothing or other items may be acquired by the School in order to promote its image. These items may be provided as gifts or may be available for resale.

COMMUNICABLE DISEASES

Background

The existence of numerous communicable diseases, including Acquired Immune Deficiency Syndrome (AIDS) requires school authorities to establish procedures with regard to the management of infected students and staff. Such procedures reflect both the preservation of the public interest as well as the protection of individual rights and freedoms.

The Charter Board is committed to the humane treatment of students and staff infected with communicable diseases within an environment that protects the health and safety of all students and staff.

Procedures

1. Normally, students with communicable diseases will be dealt with in accordance with the provisions of the Public Health Act.
2. Children with a communicable disease shall be allowed to attend school programs in an unrestricted setting unless, in the opinion of the local Medical Health Officer, special circumstances dictate otherwise.
3. The right of infected students to privacy will be respected by staff, including the confidentiality of records.
4. Information about communicable diseases will be provided to students as part of the regular instructional program as specified within the Alberta Program of Studies and related Curriculum Guides.
5. Employees infected with communicable diseases shall be allowed to continue normal duties unless:
 - 5.1 In the opinion of the local Medical Health Officer, special circumstances dictate otherwise; or
 - 5.2 The job of the employee requires that the employee be free from any communicable diseases.
6. The right of infected employees to privacy will be respected and their identity will remain confidential.
7. Employees who are unable to continue their duties as a result of having a communicable disease shall have full access to sick leave, long term disability and other medical benefits provided for by the various agreements and benefit plans.

8. Procedures for dealing with employees who may be exposed to HIV (AIDS virus) will be consistent with Occupational Health and Safety requirements as outlined in Appendix A.
9. In the event that an employee indicates that they have been infected with a communicable disease, the Principal shall immediately contact the Superintendent to review procedures to be followed.
10. If, in the opinion of the attending physician, an infected employee is no longer capable of working, the matter will be dealt with in the same way as other illnesses that impair an employee's capacity to work.
11. In all cases, the confidentiality of the persons affected by the disease shall be reserved for those who need to know on the basis of providing appropriate programs or services for the persons affected.

PREVENTION OF BLOOD BORNE DISEASES

The following School standard applies mainly to diseases that are transmitted through blood but are also to be followed when handling other body fluids such as sputum, vomit, urine or feces. It also describes how to dispose of used needles and what to do in the event of a bite or blood exposure.

1. What is a blood borne disease?

A blood borne disease is an illness caused by harmful biological organisms or pathogens that live primarily in blood. Blood borne pathogens that cause disease include viruses such as hepatitis B, hepatitis C and human immune-deficiency virus (HIV)-AIDS.

2. How are blood borne diseases transmitted?

Generally speaking, most school staff and students are not at high risk of exposure to blood borne pathogens. Blood borne pathogens are not transmitted through casual contact, however they can develop if infected blood enters the body through cuts or breaks in the skin, and through the mucus membranes of the eyes, nose or mouth.

3. What is the risk of disease transmission in a school setting?

Staff is at potential risk when there is a possibility of blood contact when cleaning up blood or vomit, providing personal care (e.g. toileting) giving first aid or working with children who are known biters. Staff that may be at most risk include first aid personnel, special education staff, physical education teachers and playground supervisors.

Blood and body fluids visually contaminated with blood present the highest risk for disease transmission. The greatest risk is from a penetrating injury such as a needle stick. Saliva and other body fluids may contain viruses but in low concentrations compared to blood. The risk of transmission from biting is far less than the risk from exposure due to a penetrating injury such as a needle stick.

Biting however can pose a risk to the person who is bitten as well as the person who bites if there is a break in the skin. The risk is higher if there is visible blood to the wound. In addition bites if not properly treated can result in infection with organisms that do not cause serious diseases.

4. How do I know if a person has a blood borne disease?

You won't unless this information has been voluntarily given to you. Carriers of blood borne diseases do not generally exhibit symptoms. For confidentiality reasons, health professionals cannot disclose the medical status of individuals without their permission. This is why we treat everyone as potentially infectious.

Blood borne diseases are notifiable diseases under the Public Health Act. If a staff member or student becomes infected, physicians and laboratories must report this to regional public

health officials. Public health nurses will notify individuals who may have close contact with the infected person and advise of any special precautions.

5. How can the spread of blood borne diseases be prevented in the workplace?

Since we do not usually know whose blood is infected, the safest approach is to treat all blood and body fluids as if it contains pathogens. Originally developed for hospitals, universal precautions have been adapted to a wide range of work settings. They apply to all situations where staff or students have risk of exposure to blood or body fluids.

Universal Precautions includes:

- The use of disposable gloves, eye protection and a respirator to provide a barrier to blood and body fluids.
- Washing hands when gloves are removed or whenever the skin contacts potentially infectious fluids.
- Using barrier masks when performing artificial respiration.
- Training staff on proper precautions and blood clean up procedures.
- Ensuring emergency eyewash stations are maintained and all staff is aware of their location(s).
- Immunization of staff that may frequently be in contact with blood or work with higher-risk populations such as children with biting behaviors.
- In some cases specialized protective equipment such as gloves, arm guards and special bite protection clothing may prevent punctures to the skin.

6. What is considered an exposure to blood and body fluids?

Situations in order of risk:

- Punctures of the skin with blood-contaminated needles, lancets, scalpels, or other sharp instruments.
- Splashes to non-intact skin bearing minute scratches, abrasions, burns, or even minor rashes.
- Splashes to mucous membranes of the mouth, nose, or eyes.
- Biting injury where visible blood is present.

7. Follow up protocol for blood or body fluid exposure incidents:

7.1 STAY CALM

7.2 Treat all exposures as potentially infectious.

7.3 Encourage bleeding of the injury site (gently squeeze) and wash thoroughly with soap and running water. If direct contact with eyes is involved, flush with eyewash or water for fifteen (15) minutes.

7.4 Apply an antiseptic and band-aid to the site.

7.5 If the exposure involves a needle stick, ensure the needle is disposed of in a tamper/puncture proof container. Keep available in case it needs to be tested by a health professional.

- 7.6 Immediately report the incident to your Principal. The Principal is to immediately notify the Superintendent to discuss the circumstances of the exposure and whether further medical attention and follow up is warranted. The Superintendent may consult with the Alberta Health Services – Needle Stick Response Team for further advice.
- 7.7 Higher risk situations include a needle stick injury or a bite where skin is broken and visible blood is seen. In these cases the staff member is advised to get a baseline blood test (for Hepatitis B, C and HIV) on the same day as the incident. In the case of bites if the source of the exposure is known (i.e. student) the parent is also to be advised to obtain a blood test for their child on the same day of the incident. This is because the biter can also be at risk of contracting a blood borne disease. If the source student is negative no further testing or follow up of the employee is necessary. If the source of blood exposure is unknown or the student does not get a blood test then further follow up testing for the employee may be required in higher risk situations. In these cases post exposure immunization and counseling may be recommended by a health professional. The Superintendent would work with Alberta Health Services- Needle Stick Response team (780-480-6598) or the employee's health care provider to coordinate follow up.
- 7.8 Document the exposure incident on a School Incident/Injury Record (Form 160-X). Send a copy to the Superintendent at and file a copy at the worksite. If the employee is covered by WCB, a Worker's and Employer's Report of Injury is also required to be completed if there is time loss associated with the incident. If the incident occurs after hours contact Alberta Health Link at 780 408-5465 for advice.
- 7.9 Any bills associated with follow up, testing or immunization are to be forwarded to the Superintendent.

8. What do you do with a used needle, lancet or epipen?

- Never throw needles or sharps down drains, toilets or in the regular garbage.
- Never reach into garbage bags or containers with bare or gloved hands.
- If you find a used needle, carefully pick it up with tweezers or wearing thin disposable gloves then wash hands immediately after disposing.

To safely dispose:

- Drop the needle or sharp into commercially available tamper proof sharps collectors.
- If a sharps container is unavailable use an empty, resalable, hard-surfaced (puncture proof) container such as a coffee can or bleach bottle labeled "Sharps – Not for Recycling".
- Keep the container out of reach of children or pets.
- Do not fill the container right to the top. Commercial containers will have a clearly defined fill line.
- When the container is full, seal the lid securely.
- Contact the Safety Coordinator to arrange for safe disposal.

9. General Disinfection of Surfaces (e.g. change tables)

- 9.1 Wear the appropriate protective equipment.

- 9.2 Review the Material Safety Data Sheet (MSDS) for cleaning and disinfection products before use.¹
- 9.3 If surfaces are visually soiled with dirt, grit or body fluids (e.g. sticky or gritty to the touch) both cleaning and disinfection is required. This requires two (2) separate applications of the disinfectant solution. One to clean away organic debris and the second to disinfect. Disinfection will not be properly completed if soil or body fluids are not cleaned away first.
- 9.4 For surfaces that have not been soiled, a single wipe with the disinfectant solution and air drying is acceptable.
- 9.5 Ensure the entire surface to be cleaned and/or disinfected is covered with solution (not partial coverage). A firm rubbing and wiping motion must be used.
- 9.6 Allow to air dry for at least five (5) minutes (or as indicated on the instructions) after the last application of the disinfectant. This will allow the necessary contact time for the disinfectant to work. No rinsing is required.
- 9.7 If spray bottles are used, avoid misting on to surfaces. Hold a cloth close to the spray nozzle and spray directly onto cloth first. (Note: Paper towels are not as absorbent as cloths and may cause solution to drip). Hold towel and bottle over the equipment to be disinfected to catch drips or use more absorbent cloths that can be laundered and reused.
- 9.8 A small 12 oz boat mop can be used to apply the solution from a bucket to larger areas such as floor mats. The mop head however must be dedicated for this purpose and cleaned/launched after each use.
- 9.9 Disinfectant solutions are to be mixed fresh daily to ensure maximum effectiveness (the product becomes less stable in its diluted form). Try to dispense only what you would typically use in a day.
- 9.10 Disinfectants are not to be used on food surfaces (unless used as a sanitizing solution- see label for dilution requirements). Rinsing the food surfaces with potable water is required after sanitizing.

10. Where can I obtain more information on blood borne pathogens and diseases?

BLOOD AND BODY FLUID CLEAN UP PROTOCOL

For safe and effective clean up of vomit or small blood spills pre- assembled kits are available from janitorial or safety supply companies or you can easily assemble one and keep it in a Ziploc bag near the first aid kit.

Basic Body Fluid Spill Kit:

- Disposable gloves (Latex free)
- Commercial absorbent¹ (1/2cup) (including product Material Safety Data Sheet)
- 2 plastic disposable waste bags with twist tie
- Disposable wiping cloth or paper towels
- Thin piece of cardboard or plastic scoop/scrapper
- Protective eye goggles

- 1 pair of disposable shoe covers
- Disposable pre-packaged disinfectant wipes/towelettes

Blood/body Fluid Clean Up Procedure:

- Isolate the spill area to prevent other people from contacting it.
- Put on protective gloves, eye goggles and respirator.
- Gather towels and spray bottles of disinfectant solution (mixed fresh).
- If using a sorbent, apply over the spill and wait for it to gel.
- Remove all visible debris/material using paper towels and/or scraper tools working from least to most soiled area. Pre-clean the area with the disinfectant and wipe clean. Place the towels and debris in a plastic bag.
- Apply a second application of the disinfectant and allow it to remain wet for the minimum contact time required by the product and let air dry. If using EP-50 the minimum contact time is five (5) minutes. (Note: consult with the custodian if the spill is on a carpet or soft furnishings)
- Place soiled paper towels and disposable equipment in a plastic bag.

¹ "Super-Sorb" or similar product is available through the custodian

² Avmor EP-50 Disinfectant in proper dilutions is available on site from the custodian. This should be mixed fresh. This is preferred over bleach. If bleach is the only product available, mix a fresh 10% solution (1 part bleach to 9 parts water). Contact time for bleach is a minimum of 10 minutes.

- Remove gloves (folding inside out) and respirator and place in a plastic bag with soiled towels.
- Close plastic bags and place in a second plastic bag and dispose of as general waste.

SMOKE AND VAPE FREE FACILITIES

Background

The Charter Board has a responsibility to promote the health and welfare of staff and students and to act as a positive role model for students, therefore it requires all School facilities and sites to be smoke and vape free environments.

Procedures

1. The Tobacco Smoking Reduction Act bans smoking and vaping in all public places and workplaces including work vehicles.
2. Smoking may occur on School property outside of the facility after school hours in a clearly signed designated area, prohibited to minors, provided the area is kept tidy and clean.
3. The Charter Board prohibits smoking and vaping within five (5) meters of a doorway, window or intake of a public place or workplace.

SMUDGING/PIPE CEREMONIES

Background

The Charter Board recognizes the spiritual needs of the Aboriginal community. The Charter Board recognizes that smudging and the use of herbs and tobacco are a part of the Aboriginal traditional way of life and is, therefore, permitted in the School, subject to proper safety measures.

Definition

Smudging is an Aboriginal tradition which involves the burning of sage, sweetgrass and/or cedar. Smudge produces a distinct odour, but the smoke associated with it is minimal and lasts a very short time. A smudge is burned to cleanse the body, mind, spirit of any bad feelings, negative thoughts, or negative energy - cleansing both physically and spiritually.

Procedures

1. If smudging is to take place in a School building, the Principal must ensure staff understand the associated protocols and importance of smudging and pipe ceremonies as part of the Aboriginal traditional way of life.
2. If smudging is to take place in a School building it will be in a designated area.
3. Any areas designated as smudging areas are to be in a well-ventilated area and approved by the Superintendent.
4. Designated smudging areas must contain a fully charged fire extinguisher.
5. Staff responsible must be instructed on the use of fire extinguishers.
6. When smudging ceremonies are completed the materials must be fully extinguished and disposed of in an appropriate manner.
 - 6.1 Smoking or warm smudging materials need to burn out on their own.

WELLNESS

Background

Wellness is a balanced state of active living, healthy eating, and social/emotional well-being. Health and quality learning are interdependent. Educational research supports this connection and acknowledges the School's role in creating and supporting a healthy school community as a foundation for optimal learning. The School is committed to a comprehensive school health approach that fosters lifelong wellness practices.

Procedures

1. The Comprehensive School Health approach in the School focuses on three (3) priority areas: active living, healthy eating, and positive social/emotional environments, and acknowledges the interconnectedness between the three.
 - 1.1 Active Living

Students who are physically active are more likely to exhibit on-task behaviour, academic success, and social inclusion. Incorporation of activity into daily routine and an active living lifestyle supports optimal physical, cognitive and social growth and development that helps maintain a healthy body weight and reduces the risk of chronic disease.
 - 1.2 Healthy Eating

Nutrition plays a significant role in student growth, developing disease resistance, and physical and mental health. Students who make wise and healthy food choices based on Canada's Food Guide to Healthy Eating support optimal physical, cognitive and social growth and development while reducing their risk of obesity and chronic disease.
 - 1.3 Social/Emotional Well-being

Students who have a strong sense of self and belonging and who feel safe and cared for at school are more likely to achieve greater academic success, have successful and rewarding relationships, and exhibit positive social/emotional behaviours.
2. The Principal will identify a Wellness Champion to facilitate student and staff access to community resources to enable everyone to:
 - 2.1 Participate in active living opportunities both within and outside of school,
 - 2.2 Make healthy nutritional choices, and
 - 2.3 Promote positive social/emotional wellbeing.
3. Employees will act from the understanding that staff advocacy and role modeling influence wellness and learning.

4. Active Living

Individuals have the knowledge, skills, attitudes and opportunities to live an active lifestyle. The Principal, in conjunction with their staff will:

- 4.1 Provide quality daily physical activity (grades 1 to 6) and encourage students to engage in physical activity inside and outside of regular curriculum to support their development as healthy, active learners;
- 4.2 Provide for opportunities to meet the outcomes of the Physical Education Program of Studies; or meet the minimum time allocations for quality physical education;
- 4.3 Use Physical Education expertise of the staff and others in providing/enhancing programming for students.

5. Healthy Eating

Individuals have the knowledge, skills, attitudes and opportunities to develop lifelong healthy eating practices.

- 5.1 The primary reference for the provision, promotion, sale and distribution of food in the school shall be the Alberta Nutrition Guidelines for Children and Youth from which the Principal, in conjunction with staff, shall provide foods from the “Choose Most Often” and “Choose Sometimes” categories, and limit foods from the “Choose Least Often” category. This Administrative Procedure does not impact lunches and/or snacks that students or staff members are bringing from home.
- 5.2 The Principal must ensure that strategies are in place to foster the knowledge, skills and attitudes that promote healthy eating for everyone. In fulfilling this expectation, the Principal, in conjunction with staff, shall:
 - 5.2.1 Promote nutrition education and create an environment of positive food and beverage messages;
 - 5.2.2 Establish strong connections between nutrition education and foods available at the school;
 - 5.2.3 Schedule nutrition break(s) that provides time for eating and recreation; and
 - 5.2.4 Be encouraged to limit the use of food as a reward.
- 5.3 The School community will examine nutrition practices and provide opportunities, support and encouragement for staff and students to consume healthy foods/beverages. In fulfilling this expectation, the Principal, in conjunction with staff, shall:
 - 5.3.1 Explore healthy fundraising options based upon foods from the “Choose Most Often” category and limit foods from the “Choose Least Often” category;
 - 5.3.2 Create an environment where healthy foods/beverages are available, affordable and promoted as the best choice;
 - 5.3.3 Review options with food suppliers to maximize the nutritional value of the items;
 - 5.3.4 Limit the number of items from the “Choose Least Often” category offered during special days;
 - 5.3.5 Be encouraged to model healthy nutritional practices.

- 5.4 The Principal is encouraged to create a health and wellness team that includes students, staff, and parents, in collaboration with public health nurses and other health-related professionals.
- 5.5 The Principal shall promote healthy, reasonably priced food/beverage choices when sold or otherwise offered. In fulfilling this expectation, the Principal, in consultation with the school community, shall:
 - 5.5.1 Access expertise in the community through approaches including but not limited to partnerships, programs, referrals; and
 - 5.5.2 Offer healthy foods/beverages including healthy meal combinations.

6. Social/Emotional Well-being

- 6.1 The Principal, in conjunction with staff, will actively develop the relationship between student/staff- sense of connectedness and their social/emotional well-being by:
 - 6.1.1 Supporting and embedding education programs to support emotional well-being.
 - 6.1.2 Creating learning environments where emotional well-being is role modeled and developed in students.
 - 6.1.3 Accessing the resources and links with community agencies, partners and support networks to help students/staff develop the skills to be aware of and monitor their emotional well-being.
- 6.2 The Principal, in conjunction with staff, will also:
 - 6.2.1 Access integrated, multidisciplinary social/emotional supports that may include partnerships with communities and other agencies.
 - 6.2.2 Provide a school environment that encourages making positive choices to support healthy body image.
 - 6.2.3 Provide education reducing the stigma surrounding mental health shall be provided.

EMERGENCY CIRCUMSTANCES AND CRISIS MANAGEMENT PLAN

Background

Emergency Circumstances and Crisis Management planning at the School is based on the premise that the physical and emotional well being of students and staff are of primary importance and that the safety and security of students and staff is an integral part of an optimal learning environment.

The Principal will make all reasonable efforts to ensure that plans commensurate with the needs of the School are developed. The Superintendent will oversee the implementation of the Plan.

Definition

Crisis is defined as any unusual situation, falling under or impinging on the jurisdiction of the School that could interfere with the wellbeing of students and staff. This would include, but is not limited to, events such as interruption of essential services to the School, fire, violence, threats, serious illness or accident involving members of the school community, and crisis in country or community.

Procedures

1. Minimizing risk and limitation of harm are fundamental considerations when developing a Crisis Management Plan.
2. Safety rules for classes and the School at large are part of crisis management.
3. While it is impossible to predict the nature and scope of all potential crisis situations, proper planning can facilitate an appropriate response to a crisis.
4. Staff must understand that the existence of a Crisis Management Plan does not preclude the use of professional judgment to modify the Plan when it is warranted.
5. The Principal will promote a culture within the school that encourages consistent consideration for the safety and well being of students and staff in the creation and implementation of all plans, policies, and procedures. An explicit plan with roles and responsibilities may be developed with the input of Charter Board members, staff, and other stakeholders.
6. Since school evacuation may be required in many cases, the Principal shall ensure that crisis response instructions and an evacuation map are posted in each instructional area of the school and other areas as determined by the Principal.
7. At least three (3) times in the fall term and three (3) times in the spring term, a fire drill shall be held and the Principal is to record for reference:

- 7.1. Date of drill;
 - 7.2. Time to evacuate school fully;
 - 7.3. Observations or recommendations.
8. At least one (1) time in the fall term and one (1) time in the spring term, a lock down drill shall be held and the Principal shall record the date of the drill and observations and recommendations.
 9. In the event of a crisis/disaster:
 - 9.1. According to ability, teachers shall do what is reasonable to protect, account for, and care for the student(s) under their direct supervision.
 - 9.2. The Principal shall take steps to ensure the safety of the student(s) and contact the appropriate authorities, including the Superintendent.
 - 9.3. Communication with parent(s) will be initiated at the discretion of the Principal.
 - 9.4. Special consideration is to be given, and professional assistance sought, in cases where trauma or excessive emotional stress is in evidence.
 - 9.5. If necessary, the Superintendent may close the school. Every effort shall be taken to resume regular classes as soon as appropriate.
 10. During the first week of school, each teacher shall ensure that the evacuation and/or disaster procedures are clearly posted and reviewed in his/her classroom(s).
 11. This Administrative Procedure and related procedures/protocols shall be reviewed by the Principal at a staff meeting prior to the end of September.
 12. The Principal shall provide updated copies of the school crisis/disaster plan to the Superintendent.
 13. In addition to an immediate verbal report to the Superintendent, a detailed report of any major disaster at the School shall be provided to the Board by the Superintendent and Principal no more than two (2) weeks following the event.

PANDEMIC RESPONSE

Background

The Charter Board, in cooperation with the provincial government and Alberta Health Services, supports efforts to minimize a pandemic and its disruption to the operational activities of the School. The Principal and staff are expected to ensure the most effective and efficient use of resources for the maximum benefit and protection of students, staff and facilities.

Procedures

1. In the event that Alberta Health Services identifies evidence of a significant influenza outbreak in the region, the Superintendent has the authority to make final decisions regarding crisis response, as guided by the School Crisis Management Plan. When a state of emergency is declared by a Ministry of the Alberta Government, the particular Ministry will have such authority.
2. The Superintendent will communicate a standard set of response protocols in a Pandemic Response Plan for dealing with a pandemic to ensure that members of staff are familiar with roles and processes in the event of an outbreak.
3. In accordance with directives emanating from federal and provincial authorities and the consequent circumstances that may prevail, the Superintendent may temporarily suspend the School's current practices and operating guidelines.

DEFIBRILLATORS

Background

The installation of automated external defibrillators (AED) within School facilities is supported. The importance of taking appropriate action, whenever an emergency threatens the safety, health or welfare of a student or staff member at school or during school sponsored activities is recognized.

Procedures

1. The Superintendent has authorized the placement and use of automated external defibrillators (AED) at School facilities.
2. In a medical emergency, the doctrine of “in loco parentis” applies as outlined in the Emergency Medical Aid Act.
3. Any School facility installing an AED must ensure the following:
 - 3.1 AED meets Health Canada’s Medical Device Regulations.
 - 3.2 AED is approved by the Canadian Standards Association (CSA).
 - 3.3 Notification to the Emergency Response Communications Center (EMS dispatch) of type and location of AED.

DISCRIMINATION AND HARASSMENT

Background

The Superintendent is committed to providing and to promoting a learning and working environment for all persons that is free from discrimination and harassment. Behaviour which constitutes discrimination or harassment will not be tolerated and is strictly prohibited.

The Superintendent affirms his commitment to human rights as outlined by the Alberta Human Rights Commission and thus will not tolerate actions of discrimination and harassment. The Superintendent is also committed to the investigation of reported incidents of discrimination and harassment in a timely manner.

A staff member or student who subjects any other person to discrimination or harassment shall be subject to disciplinary action as deemed to be appropriate, including the possibility of dismissal from employment, suspension or expulsion from school.

Definitions

Complainant means the individual who makes a complaint.

Discrimination means adverse treatment based on race, religious beliefs, colour, gender, physical disability, sexual orientation, mental disability, marital status, age, ancestry, place of origin, family status, or source of income of that person or any other person. It is a denial of individual rights and freedoms in a manner which contravenes the Canadian Charter of Rights and Freedoms, the Alberta Human Rights Act, or this Administrative Procedure. Discriminatory acts can be caused through direct or indirect actions, and can result from improper action taken against, or the failure to take appropriate action on behalf of any student or staff member in contravention of the Alberta Human Rights Act or pursuant to the Charter of Rights and Freedoms.

Formal Complaint is documented and requires a written statement to be filed with an appropriate person in authority within one (1) year of the incident.

Hostile or poisonous environment is a learning and working environment in which the actions of one (1) or more people may not be directed at any one person in particular but contribute to an atmosphere which directly or indirectly affects a person's ability to work or learn effectively.

Informal Complaint is a complaint to a person in authority who acts to resolve the situation by intervening on the Complainant's behalf.

Investigator means the individual designated by the Superintendent of Schools to deal with a formal complaint pursuant to sections 5 and 6 of this Administrative Procedure.

Learning and working environment is the immediate School work site and may also include;

- A playground,
- A school bus,

- Any school or work related social activities,
- Any school or work related travel and field trips,
- Any settings where the individuals involved are engaged in work related or school related activity such as field placement or a cooperative educational work term, and
- The use of electronic or digital media such as telephone, fax, e-mail, network computers and internet communications at any time.

Person in Authority means a person whose role with the School establishes a supervisory relationship over others. For students it includes teachers and other employees to whom students may be accountable.

Personal Harassment is any unwelcome behaviour, conduct or communication, directed intentionally or unintentionally at an individual that is offensive to that individual and is based on the rights identified in the Alberta Human Rights Act, including, but not limited to, race, religious beliefs, colour, gender, age, physical disability, mental disability, ancestry, place of origin, marital status, source of income, family status, sexual orientation, gender identity or gender expression. Personal harassing behaviour may include but is not limited to threats, intimidation, ostracism, offensive gestures, offensive remarks or jokes, demeaning or humiliating actions or behaviour that supports a hostile or poisonous environment.

The test in determining if an action is harassing is whether a reasonable person knows or ought to know that the behaviour would be considered unwelcome or inappropriate by the recipient. Such an action may be a single event or may involve a continuing series of incidents. It may involve the abuse of authority or position, or it may involve relations among co-workers and affiliated personnel. Personal harassment however does not include the appropriate exercising of an individual's supervisory authority.

Prohibited Behaviour means discrimination, personal harassment or sexual harassment.

Respondent means the individual who the complainant alleges has committed prohibited behaviour.

Sexual Harassment is any unwelcome behaviour that is sexual in nature. Unwanted sexual advances, unwanted requests for sexual acts, and other verbal or physical conduct of a sexual nature constitute sexual harassment when:

- Such conduct undermines another individual's personal dignity by causing embarrassment, discomfort, humiliation or offense; or
- Such conduct interferes with an individual's work performance or learning opportunities by creating an intimidating or hostile work or learning environment; or
- Submission to such conduct is made either explicitly or implicitly a term or condition of employment or of educational services; or
- Submission to or rejection of such conduct affects decisions regarding that individual's employment or educational advancement including matters such as promotion, salary, benefits, job security, grades, or employment references.

Sexual harassment includes unwanted touching (e.g. pinching, patting, rubbing), leering, sexist jokes, the display of sexually suggestive material, derogatory or degrading comments, sexually suggestive gestures, and unwelcome propositions, innuendos, demands or inquiries of a sexual nature.

The behaviour giving rise to a complaint need not be intentional in order to be considered sexual harassment; it is sufficient that the offender knows, or ought reasonably to know, that the behaviour is offensive and unwelcome.

Procedures

1. General

- 1.1 These procedures apply to cases of discrimination, personal harassment, and sexual harassment between and among staff members, or by staff members toward students. Discrimination and harassment incidents by or among students shall be dealt with pursuant to Administrative Procedure 350 – Student Conduct, and Administrative Procedure 355 – Student Discipline.
- 1.2 Complainants, respondents and persons in authority who are involved in complaint resolution processes shall be provided with information regarding:
 - 1.2.1 Administrative Procedure 170 – Discrimination and Harassment;
 - 1.2.2 Any counseling, support, sick leave benefits, and advisor services available to employees;
 - 1.2.3 The right of the complainant and the respondent to be accompanied by a union or association representative or another individual;
 - 1.2.4 The right of the complainant to withdraw the complaint at any stage in the process;
 - 1.2.5 Alternative routes for addressing the complaint.
- 1.3 At any time in the informal or formal complaint process, mediation is an option for the complainant and respondent, if both parties agree.
- 1.4 Both the complainant and respondent have the right to seek representation from a union or professional organization, or another individual at no cost to the School.
- 1.5 The complainant and the respondent are encouraged to cooperate with the investigation and resolution of the complaint.

2. Confidentiality and Privacy of Information

- 2.1 The Superintendent recognizes the difficulty of reporting personally harassing or sexually harassing behaviour, and understands that confidentiality is important to the complainant. Confidentiality will be maintained throughout the complaint procedure to the extent possible.
- 2.2 Information relating to the complaint, including the identity of the parties involved, will only be disclosed to the extent necessary to thoroughly investigate the complaint and as may be required in accordance with the privacy and access provisions contained under the Freedom of Information and Protection of Privacy (FOIP) Act.

3. Direct Action

- 3.1 Individuals who believe they are experiencing prohibited behaviour are to:

- 3.1.1 Tell the harasser that his or her behaviour is unwelcome and ask him/her to stop.
 - 3.1.2 Keep a record of all incidents including the date, time, location, nature of the prohibited behaviour, possible witnesses, circumstances surrounding the incidents, and your response including any action taken to stop the prohibited behaviour.
 - 3.1.3 If you are not able to communicate verbally, advise the offender, in writing, that his or her behaviour is unacceptable and unwelcome and ask him or her to stop.
 - 3.1.4 Promptly report the prohibited behaviour to a trusted adult or person in authority.
 - 3.1.5 Any employee or student who believes that a colleague or fellow student has experienced or is experiencing discrimination, personal harassment, sexual harassment or retaliation is encouraged to notify a trusted adult or person in authority as soon as possible.
- 3.2 This Administrative Procedure does not preclude the complainant from reporting harassment of a discriminatory nature to the Alberta Human Rights Commission, or if the matter is perceived to be criminal in nature, to the police.
 - 3.2.1 All reports to the Human Rights Commission must be filed within one (1) year of the date of the incident.

4. Informal Complaint

- 4.1 If the complainant is unable to take direct action or the prohibited behaviour continues, the complainant is to promptly make an informal complaint by informing a person in authority.
 - 4.1.1 The person in authority shall act to resolve the situation by intervening on the complainant's behalf, by arranging for the respondent and complainant to come together to resolve the complaint, or by advising the complainant where appropriate of other options.
 - 4.1.2 If this does not successfully resolve the issue, the complainant may choose to initiate a formal complaint. It is not necessary to initiate an informal complaint before filing a formal complaint. If a formal complaint is initiated, it supersedes an informal complaint.
 - 4.1.3 At any time after the initiation of an informal complaint, the complainant may request that no further action be taken.

5. Formal Complaint

- 5.1 A formal complaint is to be filed promptly and must be filed in writing within one (1) year of the date of the prohibited behaviour, with the Superintendent.
- 5.2 The Superintendent shall inform forthwith the respondent, and the supervisors where appropriate of the complainant and respondent about the formal complaint.
- 5.3 An investigator shall be chosen by the Superintendent. The Superintendent will make reasonable efforts to find a mutually acceptable investigator but if this is not possible, the Superintendent will appoint an investigator to ensure that the process is implemented expeditiously.

5.4 An investigator shall attempt to resolve the complaint through conciliation or mediation.

5.4.1 If conciliation or mediation is not successful within thirty (30) days from the date of appointment of the investigator, or alternatively if either the complainant or respondent does not wish to participate in conciliation or mediation, then the matter shall be investigated.

6. Investigation

6.1 The investigator shall request a detailed written statement from the complainant. Should the complainant prefer, the investigator shall interview the complainant.

6.2 If the complainant provides a written statement, the investigator will follow up with an interview of the complainant.

6.3 The investigator shall interview the complainant and respondent as necessary.

6.4 The investigator shall interview any other persons and gather such other materials as may be necessary for the investigator to conclude the investigation.

6.5 The investigator may provide the parties with the written statements and a written summary of the interviews, where deemed appropriate, and be subject to the application of the privacy provisions of the Freedom of Information and Protection of Privacy Act.

6.6 The investigator shall produce a report of fact and findings relating to the complaint made.

6.7 The investigator's report shall be provided to the Superintendent within thirty (30) days of the filing of the formal complaint.

6.7.1 The Superintendent may extend the timeline for the submission of the report but in any event it is to be completed as soon as practically possible.

6.7.2 A summary of the report or the findings may be shared with the complainant and the respondent as is deemed appropriate.

7. Consequences

7.1 Prohibited Behaviour

7.1.1 If the Superintendent concludes that prohibited behaviour has been committed, a range of sanctions may be imposed as deemed appropriate by the Superintendent. These may include:

7.1.1.1. A written apology;

7.1.1.2. A written reprimand delivered to the harasser, and recorded in their personnel or student file;

7.1.1.3. Referral to counseling;

7.1.1.4. Transfer;

7.1.1.5. Withholding of promotion;

7.1.1.6. Demotion;

7.1.1.7. Suspension or termination (for employees);

7.1.2 For serious or repeat prohibited behaviours, the appropriate sanction may be

dismissal. Information regarding the decision and disciplinary action shall be placed in the respondent's personnel file.

- 7.1.3 If the respondent is a teacher and the Superintendent decides that dismissal is warranted, then the Superintendent will take this action.
- 7.2 If the Superintendent concludes that an intentionally false allegation of prohibited behaviour has been made, a range of sanctions may be imposed on the complainant as deemed appropriate by the Superintendent. For serious or repeat false allegations of prohibited behaviours, the appropriate sanction may be dismissal.
- 7.3 If the Superintendent concludes that the formal complaint is unfounded, documentation is not included in the personnel file of the respondent. However, the respondent may request to have relevant information placed on their own file.
- 7.4 Whether the complaint is upheld or not, no documentation will be placed on the complainant's personnel file where the complaint is filed in good faith. However, the complainant may request to have relevant information placed on their own file.

8. Retaliation

- 8.1 The Superintendent will not tolerate retaliatory action by any individual including staff, agents or students which is taken with the intent of dissuading or punishing an individual for participating in the complainant resolution process.
- 8.2 Retaliation against an individual making a complaint or providing information to an investigator pursuant to a complaint is considered to be harassment and will, where substantiated, result in disciplinary action up to and including dismissal from employment in appropriate circumstances.
- 8.3 Other disciplinary actions may include the requirement for the provision of a written apology; a written reprimand delivered to the harasser and recorded in their personnel or student file; referral to counseling; transfer; withholding a promotion; demotion, or suspension or expulsion for students.

INCLUSIVE PRACTICES – STUDENTS AND STAFF

Background

To have high quality education for all, it is critical that our education system is equitable and inclusive. This means that each and every student, including those who self-identify as Aboriginals, those of minority cultures in Canada, those with diverse sexual orientations, gender identities and gender expressions, has the educational opportunities and supports needed to be successful in school, and in life.

Creating an education system that is truly inclusive requires the School to identify and implement evidence-based strategies that ensure the safety, belonging and full participation of all members of the school community.

Procedures

1. These practices for supporting students and staff are consistently identified as effective and appropriate in the creation of learning environments that are welcoming, caring, respectful and safe for students, staff, families and all other members of the School community.
2. Inclusive practices include:
 - 2.1 Providing supports that respond to a student's individual needs.
 - 2.2 Defining appropriate expectations, behaviors, language and actions in order to prevent discrimination, prejudice and harassment through greater awareness of, and responsiveness to, their harmful effects.
 - 2.3 Ensuring that discriminatory behaviors and complaints are taken seriously, documented and dealt with expeditiously.
 - 2.4 Respecting an individual's right to self-identification.
 - 2.5 Maintaining School records in a way that respects privacy and confidentiality.
 - 2.5.1 When so requested, the student's official record is to be changed to reflect their preferred name or gender; all School forms and records will be congruent.
 - 2.6 Ensuring dress codes respect an individual's culture, gender identity and gender expression.
 - 2.7 Minimizing gender-segregated curricular activities.
 - 2.7.1 Where segregation by gender occurs, all students are to be given the option to be included in the group that corresponds to their consistently asserted gender identity.
 - 2.8 Enabling all students to have full, safe and equitable participation in curricular and extracurricular activities.

- 2.8.1 When necessary, the Principal will make the final decision with regard to student participation in athletic activities.
 - 2.9 Providing safe access to washroom and change-room facilities.
 - 2.9.1 Individual solutions to washroom access are to be implemented with respect and discretion, in ways which demonstrate sensitivity to the needs and safety of all students; allowing for appropriate privacy in a manner that does not significantly disrupt the school environment.
 - 2.9.2 In change rooms that require undressing in front of others, students who desire increased privacy for any reason (medical, religious, cultural, gender identity) shall be provided with accommodations that best meet their individual needs and privacy concerns, subject to safety considerations.
 - 2.10 Providing professional learning opportunities that build the capacity of staff to understand and support Aboriginal learning and culture, diverse sexual orientations, gender identities and gender expressions.
 - 2.11 Using a comprehensive whole-school approach to promote healthy relationships and prevent and respond to bullying behaviour.
 - 2.12 Ensuring students have the understanding, skills and opportunities to contribute to welcoming, caring, respectful and safe learning environments that respect diversity and nurture a sense of belonging and a positive sense of self.
 - 2.13 Ensuring all families are welcomed and supported as valued members of the School community.

COLLECTION OF PERSONAL INFORMATION NOTICE

The Freedom of Information and Protection of Privacy (FOIP) Act sets controls and standards on how public bodies, such as school boards, collect, use and disclose personal information that is in their custody or under their control.

The FOIP Act requires that school boards collect personal information directly from individuals the information is about, that these individuals be provided with the legal authority for the collection, be explained the purpose of the collection and how the information will be used, and be provided a contact person if they have any questions relating to this activity.

The information collected as part of the school registration process is personal information as referred to in the FOIP Act. This personal information is collected pursuant to the provisions of the Education Act and its regulations (e.g. for the establishment of a student record, determination of residency) and pursuant to section 32(c) of the FOIP Act as the collection is related directly to and is necessary to a school board's obligation to provide students with an education program that meets their needs and to provide a safe and secure school environment (e.g. program placement, determination of eligibility and/or suitability for provincial or federal funding, contact and health related information in the event of problems or emergencies). Personal information may also be provided to the Minister of Education for the purpose of carrying out programs, activities or policies by the Ministry (e.g. research, statistical analysis).

Once the information is collected and compiled, the School believes the uses listed below are part of a vital, healthy and functioning School and participation of all students is important and encouraged. Here are examples of activities where the information may be used:

- The use of student's names, related contact information and telephone numbers for absenteeism verification.
- The taking of photos and/or videos of classroom activities, and their use by the media or other organizations where students are not interviewed or identified by name. Where individual students are identified or interviewed and the material will be used outside the School a separate and specific consent will be required. You will be contacted prior to this event taking place. Please note that photos and/or videos of School activities that are open to the general public may be taken and used for purposes within and outside of the School.

- The taking of photos/videos of classroom or other School activities by the School where the material will be used within the School. Where individual students are identified or interviewed and the material will be used outside the School, a separate and specific consent will be required. You will be contacted prior to this event taking place.
- The use of student's names on artwork or other creative work or material of students displayed at School sites or at a School sponsored display in the community, provided a Parental Consent Form (Form 300-1) is properly completed.

BASIC INSTRUCTIONAL PROGRAM

Background

The School curriculum will meet the requirements established by the Education Act, Ministerial order 028/2020 – Student Learning and directives of the Ministry of Education. The provincial prescribed curriculum developed by the Ministry of Education forms the basic program of studies for students. In addition, as permitted under the Education Act, the School will provide a number of locally developed courses designed to implement our Board's charter and to allow the School to be responsive to the particular needs of its students.

Students will achieve a comprehensive and interconnected understanding of Land Management. Environment, and sustainability. Students will grow a strong foundation of compassionate stewardship and the continual pursuit of excellence, which they will carry with them as they become responsible and successful members of society.

INCLUSIVE EDUCATION

All children have the right to a quality education, an education that shall provide a sense of belonging and acceptance in the school community and which will lead to personal growth, development and success of the individual child.

As defined by Alberta Education, an inclusive education system is a way of thinking and acting that demonstrates universal acceptance of, and belonging for, all students. Inclusive education in Alberta means a value-based approach to accepting responsibility for all students. It also means that all students will have an equitable opportunity to be included in the typical learning environment or program of choice.

In the Alberta context, inclusion means every student will be included in the greater school community and will be physically placed in the setting that is best for them at a particular time, based on the input of all parties. Inclusion does not necessarily mean that every student registered in an Alberta school system will be placed in a regular classroom. Physical placement will be flexible and changeable, always with the student's success in mind.

Procedures

1. All students shall be given the opportunity to participate in all aspects of school life.
 - 1.1 School life shall include all those activities to which students are exposed as part of their school experience.
 - 1.2 Collaborative program planning and development will allow students to be fully participating members of the school community with programs and support in place which best suits their educational needs.
 - 1.3 Appropriate screening and diagnostic assessment information contributes to a student profile that allows for planning, program development, and implementation. Information gathered at all levels of the system, beginning with the teacher and family and extending to specialists, will allow teachers to program to meet the diverse learning needs of all students.
 - 1.3.1 Program planning and development will consider all relevant aspects of a child's development. The School-based learning team will utilize collaborative practices based on the principles of wraparound to facilitate timely support and services within the pyramid of interventions for student success.
 - 1.3.2 The School-based learning team may consist of the classroom teacher, parents, students (where appropriate), and other school staff aware of the students' needs, and others as required.
2. The classroom teacher is responsible for all students in his/her classroom.
 - 2.1 The classroom teacher is accountable for the development, implementation and evaluation of the student's program.

- 2.2 The teacher provides meaningful educational experiences that supports and challenges the student's levels and styles of learning.
3. Parents will be given opportunities and encouraged to participate in their child's education as an integral part of the learning team to collaborate with program planning and implementation.
 - 3.1 Before the teacher provides a student with significant program modifications, the school-based learning team, and when appropriate the student, will collaborate to identify and provide effective instruction and support.
 - 3.2 The School-based learning team will involve parents in the identification, referral and assessment process for students requiring consultation or specialized assessments.
 - 3.3 The Principal must obtain parents' written informed consent for specialized assessments or referrals.
 - 3.3.1 In cases when parents refuse consent, the Principal is to document and place in the student record the reasons for refusal and/or actions undertaken by the School to obtain consent.
 - 3.4 Using all relevant assessment data, the School-based learning team, in collaboration with parents and when appropriate the student, will ensure that there is an individual program plan developed, implemented, monitored and evaluated.
 - 3.5 The Principal will identify whose responsibility it is to coordinate, develop, implement, monitor and evaluate the School-based individual program and services.
 - 3.6 The Principal must obtain written informed consent from parents to provide coordinated services to students, when required, and as identified in students' individual program plan.

 - 3.9 When a student is exceptionally vulnerable to severe reaction or injury, the Principal, with the parent(s) or caregiver(s), is responsible for ensuring appropriate arrangements are made for the welfare of the student. To fulfill this responsibility the Principal shall, as per Administrative Procedure 316 – Dispensing Medication to Students:
 - 3.9.1 Make reasonable provisions which will enable the student to receive special medical treatment as required at school.
 - 3.9.2 Request that the Superintendent locate a more suitable educational setting for the student to attend school.

ANIMALS IN SCHOOLS

Background

Animals are only to be in the School for specific educational purposes. Animals may be in the classroom for observation only, not for experimentation. The purpose for keeping the animals need to include, but not be limited to, the Alberta Programs of Study. The life expectancy of an animal is to be considered before committing to long term care of an animal.

Animals may cause allergic or asthmatic reactions. Animals can carry and pass harmful organisms, via touching or biting, which may cause illness to humans. Animals may have an adverse effect on indoor air quality and possibly impact on school financial resources due to required veterinary care due to illness. Animals may not be appropriate for all learning environments.

Responsibility for the humane and proper care of animals is the legal obligation and moral responsibility of those who have assumed stewardship of the animals. The teacher accepts full responsibility for and must closely supervise and monitor care and use of animals in the classroom. The keeping of animals is governed by various pieces of legislation including: Alberta Wildlife Act, Alberta Animal Protection Act and the Criminal Code of Canada. Programming needs are to consider potential re-structuring and preparation of the School environment and classrooms to ensure all students can safely function and learn with the presence of a Service Dog.
 - 3.9 Where two (2) disabilities require conflicting accommodations, the Principal must first consider whether alternatives exist that do not pose a conflict. If no such accommodation exists, the conflicting interests must be balanced against one another to determine which accommodation will impose less hardship on the School and the individuals involved.
 - 3.10 Establish rules of conduct around the Service Dog for students, staff and the public.

FIELD TRIPS AND EXCURSIONS

Background

The Superintendent supports the practice of curricular, co-curricular or extra-curricular field trips and excursions.

The complete education of the child involves experiences beyond classrooms and textbooks. These experiences may be curricular, co-curricular or extra-curricular in nature.

Teachers and students may, from time to time, need to travel to other communities for experiences. While field trips and excursions have positive educational value, care must be taken to ensure that trips or excursions are organized in a manner that maximizes educational benefit and ensures the protection and safety of travelers.

Procedures

1. Student Travel Categories

All student travel will be assigned to one of three categories (in order of general priority for approval):

- 1.1. Curricular: Travel relates directly to the students' study in one or more subject areas and participation is on a class basis (e.g. class field trip to Edmonton). Direct curricular ties must be established.
- 1.2. Co-curricular: Travel develops from the School's program and/or students' studies. Curricular ties that are established may be indirect.
- 1.3. Extra-curricular: Travel relates indirectly to the School's program and curriculum. Indirect curricular ties are to be outlined.

2. Priority

- 2.1. Priority shall be given first to travel within the general area, with travel elsewhere within the province or out-of-province being authorized only when a similar experience is not available locally. In-province travel shall have priority over out-of province travel; Canadian travel shall have priority over international travel.

3. Funding

- 3.1. The Principal may authorize a portion of the costs related to all categories of student travel. Some costs may be the responsibility of the participants, either through direct payment or through fund-raising activities.

4. Special Funding for Students

- 4.1. Notwithstanding Section 3, no child shall be prevented from participating in curricular or co-curricular travel due to financial considerations. If a student appears unable to participate due to financial considerations, the Principal may provide financial support from the School budget.

5. Approvals

- 5.1. For those field trips requiring Board approval, it is important that approval in principle be obtained prior to any non-refundable financial commitments

- 8.3. In determining the supervision ratio, consideration must be given to the age and nature of the students, and the type of activities planned. A detailed itinerary of each trip shall be approved by the Principal. If the supervisors deviate from that itinerary, they shall receive prior approval from the Principal.

9. Use of Privately Owned Vehicles

- 9.1. The use of privately owned vehicles to transport students is prohibited with the exception of vehicles designated at the School, by the Principal, for the transportation of students in emergency circumstances. 10.5.2. Estimated budget information must be provided with the proposal.

10.6. Assessment of Risk Factors

In order to ensure the safety of students and accompanying personnel, areas selected for overseas travel are to be ones in which:

10.6.1. There has been a history of political stability for at least five years and no indications that political turmoil may erupt within the next twelve months. Information can be obtained from website: www.voyage.gc.ca/destinations/menu_e

10.6.2. Risk in other areas (e.g. health, transportation, geographical features) is not substantially greater than those that would be experienced by students traveling within Alberta.

LEGAL CUSTODY OF CHILDREN/STUDENTS

Background

Custody disputes between parents or other family members may be complicated by the fact that legal custody of the child/student has not been assigned. In such cases, de facto custody lies with the parent with whom the child/student lives.

While it is preferable to avoid becoming involved in a custody dispute, the protection and best interest of the child/student must be the major factor in a Principal's decision whether or not to release a student to a person claiming custody.

Students/children who are the subjects of custody claims are not to be released from the School until the normal morning or afternoon dismissal time.

Procedures

1. All claims for the custody of students must be referred to the Principal.
2. Where there is a demand for access to a student and legal custody is uncertain, the Principal shall:
 - 2.1 Ask the claimant to identify themselves and produce a legal order or a notarized statement for custody.
 - 2.2 Inform the claimant that the student will not be released from the School until the normal morning or afternoon dismissal time; and that the parent with whom the student lives will be informed that the claim for access has been made.
 - 2.3 Notify the parent with whom the student lives that the claim for access has been made and bring agreement as to whom the student will be released.
 - 2.4 Attempt to bring the two (2) parties to agreement as to whom the student will be released. A School social worker or RCMP officer may be called upon for assistance in the mediating role.
 - 2.5 If the parent with whom the student lives cannot be contacted and thus the two (2) parties cannot be brought together, then the parents may seek the assistance of the School social worker in making temporary arrangements for the child's care.
3. A record shall be kept in the school of any custody claims which may be received, including dates, times, names and demeanour of persons involved, and as much of their actual statements as it may be possible to record.
4. When deemed necessary, the Superintendent shall be informed by the Principal of all demands for custody which they may receive.
5. Any request for access to a student or information (e.g. student report cards, etc.) about a student from a parent with whom the student does not live shall be referred to the Principal.

- 5.1 Such information may be released to an individual with parental rights.
- 5.2 An individual who is a parent of a child and for whom there is no court documentation restricting access to the child is assumed to have parental rights.
- 6. The Principal is to use her discretion in dealing with such requests, bearing in mind that a court order restricting the access of a parent to their child applies while the child is in the School or on School property.
- 7. A social worker may be consulted for advice and assistance in dealing with such requests.

In order to minimize duplication of effort and improve access for, and responsiveness to, children and families in need, the Superintendent is committed to working together with other community agencies, organizations and associations; other local School authorities, including operators of Early Childhood Services (ECS) programs; and regional authorities, including Alberta Health Services and Child and Family Services Authorities. Examples of "working together" include information-sharing procedures, sharing of staff facilities, and joint service planning and delivery agreements (informal or formal).
2. To serve the needs of students and children in the School community, the Principal and, where appropriate, other staff members, will take an active role to initiate or participate in working together with other members of the community and community agencies to improve services.

STUDENT DISCIPLINE

Background

The long-range purpose of discipline is to encourage students to exercise self-control, while the short range purpose may be to maintain a satisfactory learning environment in the School. Procedures

1. School personnel are to deal with all discipline matters in a calm, objective and professional manner reflecting individual differences and situations.
2. The Principal is to develop School procedures which will guide and assist staff with student discipline.

 - 3.4 Each program shall specify the type of individualized documentation it requires.
 - 3.5 Each program shall be approved prior to being implemented by the Superintendent who may at any time terminate the program.
 - 3.6 The informed consent of the parent(s) must be obtained in writing prior to implementation of the program.
 - 3.6.1 This consent may be terminated at any time upon submission of written notice by the parent(s).
 - 3.6.2 In the event that parental consent is refused it may be necessary to excuse or expel the student from School.

- 3.7 Each program shall be supervised on a regular basis by a professional named by the Superintendent. This supervision shall include routine evaluation of the effectiveness and of the appropriateness of the program.
- 3.8 All staff members who may, as part of their responsibilities in the program, be required to use physical restraint procedures shall be properly trained in these procedures prior to implementation of the program.

Employees have the responsibility to report to work capable of performing their tasks productively and safely. The use of drugs, including controlled drugs, the improper use of prescription or non-prescription medication, and the use of alcohol, cannabis, or other intoxicants can have serious adverse effects on the safety of the workplace for employees, students, contractors, and the public.

The purpose of this Administrative Procedure is to establish the Superintendent's expectations for appropriate behaviour, the consequences for non-compliance, to provide consistent guidelines for all employees, and to clearly communicate to employees suffering from drug and/or alcohol dependency the accommodation and support available to them.

Definitions

Drugs means any substance, inclusive of illicit drugs, restricted drugs, and medication, as defined by this Administrative Procedure, the use of which has the potential to cause impairment or intoxication, changing or affecting the way a person thinks, feels, or acts. Restricted Drug means any drug or substance capable of causing intoxication or impairment which is legally obtainable for recreational use and whose sale, purchase, possession, or transfer are restricted by law (such as cannabis).

Medication refers to a drug obtained legally by an employee and used as indicated or directed, including but not limited to those obtained by the employee with a doctor's prescription or medical document, as contemplated by the Access to Cannabis for Medical Purposes Regulation (as amended, repealed and replaced from time to time), and non-prescription or over-the-counter products.

Under the influence of drugs, alcohol, intoxicants or any controlled or uncontrolled substance for the purpose of this Administrative Procedure is defined as the use of one or more of these substances to an extent that an employee is:

- Unable to perform in a productive manner;
- In a physical or mental condition that creates a risk to the safety and well-being of the individual, other employees, or the property of the School or any member of the public;

or

- Displaying signs or symptoms of impairing substance use, including but not limited to the smell of alcohol or drugs, slurred speech, and/or atypical behaviour.

Drug or alcohol dependence A mental, physical, or psychological dependence on drugs, alcohol, or other impairing substances which is considered by a physician to be a medical condition/disability as contemplated by Human Rights law.

Recreational drug/alcohol or other substance use With recreational use of drugs, alcohol, or other impairing substances, there is no mental, physical or psychological dependence; therefore, this is not considered a medical condition or mental, physical, or psychological disability as contemplated by Human Rights law.

Safety-sensitive positions shall include any position where the performance of duties with impaired physical or mental abilities creates a reasonably foreseeable risk of injury, physical harm, or danger, including, but not limited to those employees who are required or permitted to operate the School's vehicles or their own personal vehicles for employment-related purposes and maintenance staff.

Procedures

1. Treatment and Accommodation

- 1.1. Any employee actively suffering from a drug or alcohol dependence which may impair or restrict the performance of their duties is required to disclose the dependence to the Superintendent. The Principal recognizes responsibility to assist and accommodate employees suffering from a drug or alcohol dependence to the point of undue hardship, including providing access to our Employee Assistance Program ("EAP") and sick leave as with any other illness. The Principal will take appropriate precautions to protect the employee's confidentiality given the sensitive nature of the issue.
- 1.2. Employees who are concerned that a fellow employee may be suffering from a drug or alcohol dependence are strongly encouraged to report their concerns to the employee's immediate supervisor or the Superintendent, as well as encouraging the fellow employee to disclose and seek assistance through the EAP. While the Principal will make best efforts to protect employees' confidentiality when a concern is reported, it may be necessary for the Principal to disclose certain information, including but not limited to the identity of the reporting employee, to the employee in question in order to properly investigate concerns.

2. Prohibitions

- 2.1. During an employee's working hours, whether on the School's premises or while conducting employment-related activities off the School's premises, including during meal periods, scheduled breaks, on field trips, and on-call shifts, no employee shall:
 - 2.1.1. Use, consume, possess, distribute, sell or be under the influence of Illicit Drugs;
 - 2.1.2. Use, consume, possess, distribute, sell or be under the influence of Restricted Drugs;
 - 2.1.3. Use, consume, possess, distribute, sell or be under the influence of alcohol,

unless authorized by the Principal for a specific limited purpose (while the Principal expects that all employees will comply with this rule on a day to day basis, it is recognized that for some employees approved and appropriate social functions within the course and scope of their work hours will occur at which reasonably limited consumption of alcohol is customary and appropriate without express authorization. Some common examples for illustration purposes would include: professional conference cocktail reception, external work related teaching conferences, School approved social dinner, or a promotional activity or event such as a Christmas party. However it is critically important that all employees understand that even at these events where alcohol consumption is permitted, alcohol is only to be consumed on a social basis to reasonable levels which ensure professional and responsible behavior by School employees at all times.); or

- 2.1.4. Use, consume, possess, distribute, sell or be under the influence of any other intoxicants, whether a controlled or uncontrolled substance.
 - 2.2. An employee shall not, under any circumstances, consume alcohol or use, consume, ingest, or inhale illicit drugs, restricted drugs or other intoxicants while in care and control of or responsible for any School vehicle or equipment, or while using the employee's personal vehicle for work-related purposes.
 - 2.3. If an employee is called back after regular working hours to perform work-related duties and has been consuming alcohol or using drugs or other intoxicants, and impairment has resulted, it is the employee's responsibility to:
 - 2.3.1. Ensure that he or she does not perform any employment duties, including the operation of a motor vehicle, while under the influence of alcohol, illicit drugs, restricted drugs, medication or any other intoxicant or substance; and
 - 2.3.2. Notify the Employer Representative who is attempting to call them in, that they are unable to perform their duties at that time.
 - 2.4. The legal use of medication in compliance with physician directions is permitted at work only if it does not impair the employee's ability to perform his or her work effectively and in a safe manner. Employees are required to disclose to the Superintendent the use of medication which may reasonably be expected to affect their work performance or the safe execution of their duties. The Principal is committed to accommodating an employee's necessary use of medication without suffering undue hardship. When prescribed medications are on School or School's property due to an employee's needs and following the above rules, such medication must be monitored vigilantly and kept in a secure place that is out of harm's reach and inaccessible to students (e.g. the Employee's pocket, or locked cabinet, etc.)
3. Testing
- 3.1. Reasonable Cause Testing
 - 3.1.1. The Principal may conduct testing for the presence of alcohol, or drugs when there is reasonable cause to believe that the actions, appearance or conduct of an employee while on duty (including while on-call) indicates that the employee is under the influence of restricted or illicit drugs or alcohol.
 - 3.1.1.1. While the Principal reserves this right for all employees, employees are to understand that the necessary threshold to establish

reasonable cause in the eyes of the Principal will be lower for employees in safety-sensitive positions, given the potential consequences involved.

- 3.1.2. The basis for the decision to test will be documented as soon as possible after the action has taken place and identified to the employee prior to the test being conducted. The employee will be invited and have the opportunity to speak to or refute the basis for the decision to test, and the Principal shall consider the employee's position prior to proceeding with the test. The referral for the test will be based on specific, personal observations resulting from, but not limited to:
 - 3.1.2.1. Observed use or evidence of use of restricted or illicit drugs or alcohol (e.g. smell of alcohol or cannabis);
 - 3.1.2.2. Erratic or atypical behaviour of the employee;
 - 3.1.2.3. Changes in physical appearance of the employee;
 - 3.1.2.4. Changes in behaviour of the employee;
 - 3.1.2.5. Changes in speech patterns of the employee;
 - 3.1.2.6. Discovery of drugs, inclusive of medication capable of causing impairment, alcohol, intoxicants or related paraphernalia found in locations to which an employee has sole or primary access, including employees' lockers or assigned vehicles; or
 - 3.1.2.7. Following a serious incident or accident where the possibility of drug or alcohol impairment cannot be easily ruled out from review of the circumstances, including a "significant incident" as defined by Occupational Health and Safety legislation, and a situation which created significant potential or risk for an incident or accident, even if an incident or accident did not ultimately result (a "near miss").
- 3.1.3. In addition, the Principal may conduct reasonable cause testing upon receipt of a complaint or concern by a co-worker or third party that an employee may be using drugs, alcohol or other substances contrary to this Administrative Procedure. In such circumstances, the Principal shall record the name and contact information of the complainant as well as the details of the concern or complaint. The Principal shall provide the details of the concern or complaint to the accused employee and, in appropriate circumstances, shall also provide the complainant's identity to the accused employee to allow him/her the opportunity to provide a full and complete response to the allegations. The Principal shall also reasonably consider the surrounding circumstances, and the presence or absence of any other evidence or indicators of drug or alcohol impairment prior to making a final decision on reasonable cause to test in these circumstances.
- 3.1.4. In all situations where the Principal believes an employee is unfit to be at the workplace, a responsible escort will be used to escort the employee home.

3.2. Return to Work Testing

- 3.2.1. When an employee returns to work following a disclosure that the employee suffers from a drug/alcohol dependency and subsequent treatment, the Principal may require the employee to undergo a return to work test. Further random, unannounced testing may be required for up to one year after the employee returns to work.
- 3.2.2. Prior to implementing return to work testing pursuant to clause 3.2.1 above, the Principal will consider all the surrounding facts and circumstances on a case by case basis, and provide the opportunity for discussion and input on this decision for return to work testing by the employee.

3.3. Testing Procedures

- 3.3.1. Any testing undertaken pursuant to this Administrative Procedure, including analysis of results, shall be performed by a qualified professional. Where appropriate, results shall be confirmed by laboratory testing, which shall be performed at an accredited laboratory.
- 3.3.2. Where reasonably possible, all testing conducted pursuant to this Administrative Procedure shall be conducted respectfully and in a manner to minimize the intrusive nature of the tests. The Superintendent will contact the alcohol and drug testing provider to schedule a test. The process is to be completed as soon as possible after the incident or observation which is deemed within the guidelines of this Administrative Procedure. The drug testing will be performed in compliance with the testing procedures as defined by the drug and/or alcohol testing facility. The Superintendent will also ensure arrangements for transportation of the employee to be tested, to and from the testing facility by a School representative, to ensure the employee does not operate a vehicle.
- 3.3.3. The employee shall be notified of the result of the test, and given an opportunity to address those results, including by providing them to and discussing them with the employee's own physician. For employees with positive test results the Principal shall consider on a case by case basis all of the surrounding facts and circumstances, including input from the employee and make a determination of further steps, requirements, or recommendations that may be necessary to refer the employee to of their own or independent physician to assess whether a drug or alcohol dependency exists.
- 3.3.4. The Principal will store test results in a secure location with access restricted to the Superintendent or Secretary-Treasurer, or employees with a demonstrable need for access to test results, in order to preserve employee privacy. Test results will not be disclosed to third parties without prior written consent of the employee, subject only to a legal requirement for the Principal to produce employee test results.

4. Discipline

- 4.1. The Superintendent views the rules contained in this Administrative Procedure to be of the utmost importance. This is a zero-tolerance Administrative Procedure; any deviation from the above terms will result in disciplinary action that may include immediate termination. All employees will be provided with a copy of this Administrative Procedure as notification that any resulting dismissal will be considered

as “dismissal for just cause” and not subject to notice or pay in lieu of notice.

- 4.2. As indicated above, any employee actively suffering from a drug or alcohol dependence which may impair or restrict the performance of their duties is required to disclose the addiction, and the Superintendent recognizes his responsibility to assist and accommodate employees suffering from such a condition. However, if an employee neglects or refuses to disclose a drug or alcohol dependence to the Superintendent, in violation of this Administrative Procedure, the Superintendent may, where warranted in the circumstances, deal with breaches of this Administrative Procedure based on the understanding that the employee is not suffering from a drug or alcohol dependence, but has simply disregarded this Administrative Procedure, in which case immediate and strict disciplinary action will be taken. Further, failure to disclose a drug or alcohol dependence which may potentially interfere with the diligent and safe performance of an employee’s duties in the workplace, is itself a violation of this Administrative Procedure.
- 4.3. Notwithstanding the foregoing, any and all disciplinary action under this Administrative Procedure that is taken by the Principal against an employee will comply with the Education Act.

5. Return to Work

- 5.1. Seeking voluntary assistance for drug or alcohol dependence will not jeopardize an employee’s employment with the School, so long as the employee continues to cooperate and seek appropriate treatment for his or her disclosed problem and is able to treat and control the problem to facilitate a return to work within the reasonably foreseeable future.
- 5.2. Any employee violating this Administrative Procedure who is subsequently authorized and accepted by the Principal to return to the workplace shall (after the Principal has allowed reasonable opportunity for input and discussion by the employee, and/or the employee’s physician) receive a Return to Work Letter outlining conditions of the return to the workplace which will normally include, but is not limited to, the following:
 - 5.2.1. Requirement to continue treatment, counselling, and assistance programs or procedures recommended by the employee’s advising physician or addiction counsellor;
 - 5.2.2. Express obligation to immediately cease performance of duties and notify a Supervisor in the event the employee finds themselves under the influence at any time during work hours following a return to the workplace;
 - 5.2.3. Requirement to provide written medical confirmation that the employee has any condition under control and is able to safely return to the workplace without danger to the employee or others;
 - 5.2.4. Requirement to provide reasonably regular updates from the employee’s physician or addiction counsellor confirming that the employee continues to follow recommended treatment programs and continues to be fit for performance of duties without danger to themselves or others; and

5.2.5. An express warning to the employee that future violations of the Administrative Procedure will lead to further discipline and serious consideration of immediate termination for just cause.

5.3. Employees suffering from drug or alcohol dependence who fail to cooperate with assistance or treatment programs or engage in repeated infractions of this Administrative Procedure, will be subject to the normal disciplinary sanctions, up to and including immediate termination for just cause.

PROGRESSIVE STAFF DISCIPLINE

Background

Most employees want to do what is expected of them and want to perform their duties well. However, the Superintendent periodically needs to deal with problems caused by the conduct or performance of an employee. The Superintendent subscribes to the philosophy of progressive discipline which is premised on the hope that the employee will correct any conduct or performance problems that may arise so as to avert having disciplinary measures escalate to subsequent steps. Progressive discipline provides an opportunity to uphold the Charter Board's mission and belief statements, alleviate any feelings of unjust treatment, and offer guidance and support to employees. The goal of progressive discipline is to correct poor behaviour or performance so as to create a better and more productive employee. The Superintendent has established a set of reasonable procedures for supervisors to follow. These procedures are put in place in consideration of the overall proper and optimal functioning of the School.

Procedures

1. These procedures apply to all employees that work for the School.
2. In the event that an employee violates administrative procedures or exhibits problematic behaviour, in most circumstances the Superintendent will consider progressive discipline. This Administrative Procedure in no way fetters the Superintendent, from taking any action, disciplinary or administrative measure, or exercising any right or power under the Education Act where employment related action is warranted.
3. Letters of Concern and Expectation or Reprimand issued to the employee will:
 - 3.1 State the type of letter being issued,
 - 3.2 Alert the employee to the problem and specify the problem behaviour,
 - 3.3 Remind the employee of any previous verbal or written admonitions provided relating to the issue,
 - 3.4 Reiterate the expectations,
 - 3.5 Advise the employee of the consequences associated with further disciplinary infractions,
 - 3.6 Contain other information deemed pertinent.
4. All concerns will be investigated by appropriate personnel before determining if discipline will result. Letters of Concern and Expectation are not deemed disciplinary letters.
5. Supervisors must obtain advice from the Superintendent relative to the contents and wording of any Letter of Concern and Expectation or Reprimand prior to the letter being issued.

6. Any letter issued shall be discussed with the employee by the Supervisor upon issuance.
7. Supervisors reserve discretion in determining whether to forward a copy of a Letter of Concern and Expectation to the Superintendent for inclusion on the employee's personnel file. The letter shall indicate a copy has been so forwarded if that is the case.
8. Any Letters of Reprimand must be forwarded to the Superintendent for inclusion in the employee's personnel file, and the letter shall indicate a copy has been so forwarded.
9. Employees who have a letter placed on their personnel file have the right to provide a written response to the letter and that response shall be attached to the letter and kept in the personnel file.
10. The Supervisor is to document to their own working file the date and description of any conversations with, or verbal warnings given to, the employee relative to behaviour of concern.
11. Suspensions and terminations shall be carried out in accordance with applicable legislation and only by the Superintendent.
12. No decision made under this Administrative Procedure is appealable to the Board.

WORKER CONTRACT STATUS DETERMINATION

Background

The purpose of this Administrative Procedure is to assist the School in determining the relationship between a worker and the School, in accordance with the Canada Revenue Agency guidelines, the Employment Insurance Act, Income Tax Act and the Canada Pension Plan.

The Superintendent has a legal obligation to determine the status of workers and to ensure that appropriate contractual or employment terms and actions are consequently applied when hiring contractors or employees because the rights and obligations of workers depend on the nature of the working relationship between the worker and the School.

Definitions

Accountable Individual means the person responsible for hiring or retaining a worker and establishing a contract or determining the worker's relationship to the School.

Employee means an employee of the New Humble Community School Association hired to perform service at the School.

Four-fold Test determines who in the relationship has Control, Ownership of Tools, Chance of Profit, and Risk of Loss.

Independent Contractor means a person (individual or other entity) retained by the Charter Board, either directly or through a corporation to perform services for the School.

Worker means either an employee or Independent Contractor.

Procedures

1. Revenue Canada has issued the document RC4110 – Employee or Self-Employed which provides guidance in determining a worker's employment status.
2. An individual is considered an employee by the level of:
 - 2.1 Control: the nature and degree of control exercised by the School on how, when, and/or where the work is done. The "control test" determines whether the organization is in a position to order not only what is to be done, but also how it is to be done. Where such control exists, the courts have generally regarded the relationship as that of an employer and employee. The more control the organization has, the more likely the worker is an employee. Four factors are used in the control test:
 - 2.1.1 Selection – who has the power to select the worker?
 - 2.1.2 Dismissal – who has the right to suspend or dismiss the worker?

- 2.1.3 Method of work – who controls the method in which the job is carried out?
- 2.1.4 Remuneration – who sets the payment scale for wages or other remuneration to the worker?
- 2.2 Ownership of Tools: the tools necessary to perform work are typically provided to an employee. An independent contractor will usually supply their own tools. Tools may include cell phones, computers, and trade specific tools such as those for carpenters or electricians.
- 2.3 Opportunity for Profit: if the opportunity for profit does not change in relationship to the work performed by the worker, it indicates an employee relationship,
- 2.4 Risk of Loss: if the worker bears no risk of loss and will be paid regardless of the work they complete in a certain period of time, this is likely an employee relationship. If the individual assumes a high degree of financial risk and will not receive payment unless certain work is completed, the more likely the worker is an independent contractor.

3. Consequences

- 3.1 Workers who are employees have Canada Pension Plan contributions, Employment Insurance (EI) premiums, and income tax deducted from the worker's pay. The School is required to remit these deductions, together with the employer's share of CPP contributions and EI premiums to Canada Revenue Agency. These deductions and remittances are not made for Independent Contractors.
- 3.2 If a worker is incorrectly identified as an independent contractor, then the School would be responsible for paying both the employee's share and employer's share of CPP contributions, EI premiums, plus interest and penalties under the Income Tax Act and/or the entitlement the worker would have otherwise received under respective terms and conditions as an employee.
- 3.3 Where a worker is to be hired or retained, the Superintendent shall determine whether the worker is an employee or an independent contractor. Once the relationship is determined, employees will be hired in accordance with Human Resources processes and procedures; independent contractors will be contracted in accordance with purchasing and contract services.

VOLUNTEERS

Background

Volunteers provide an important contribution in supporting classroom teachers with activities inside and outside the School. The School community is strengthened through active and purposeful volunteer involvement.

The Superintendent recognizes the value of volunteers and supports their role in maintaining the School's capacity to deliver dynamic educational experiences for students, while ensuring that safety is a foremost consideration.

Definition

A volunteer is someone who freely offers their time for a service or undertaking at the School.

Procedures

1. With support and engagement of the teachers and staff, the Superintendent will ensure adequate procedures and will exercise discretion in determining the eligibility of a volunteer.
2. Volunteers participating in the activities of schools are required to provide a criminal record check with the vulnerable sector check completed for all volunteers whose service at the school over the course of the year is likely to exceed ten (10) hours of volunteer activity. This must be completed every three years, with a 'Volunteer Offense Declaration Form' (Form 490-3) to be completed annually.
3. Court issued documents relating to access and custody of children attending the School take precedence over other forms of documentation in determining volunteer eligibility.
4. All volunteers are expected to maintain confidentiality in all matters relating to their role working with students, teachers, and other parents and will comply with the Freedom of Information and Protection of Privacy Act (FOIPP).
5. The collection of all information under this Administrative Procedure complies with the Freedom of Information and Protection of Privacy Act (FOIPP).

RESERVE FUNDS

Background

Capital costs associated with capital equipment acquisition and replacement, new building construction and building modernization can place a substantial financial burden on the Charter Board. Ethical Guidelines for Business–Education Partnerships

Business–education partnerships are mutually beneficial relationships between employers and educators that are designed to enhance learning for students and other learners. They may involve other education stakeholders as partners, including students, employees, parents, communities, labour, and government organizations. Most business–education partnerships are co-operative relationships in which partners share values, objectives, human, material or financial resources, roles and responsibilities in order to achieve desired learning outcomes.

Canadian employers and educators support business–education partnerships that:

- Enhance the quality and relevance of education for learners
- Mutually benefit all partners
- Treat fairly and equitably all those served by the partnership
- Provide opportunities for all partners to meet their shared social responsibilities toward education
- Acknowledge and celebrate each partner's contributions through appropriate forms of recognition
- Are consistent with the ethics and core values of all partners
- Are based on the clearly defined expectations of all partners
- Are based on shared or aligned objectives that support the goals of the partner organizations
- Allocate resources to complement and not replace public funding for education
- Measure and evaluate partnership performance to make informed decisions that ensure continuous improvement
- Are developed and structured in consultation with all partners
- Recognize and respect each partner's expertise
- Identify clearly defined roles and responsibilities for all partners
- Involve individual participants on a voluntary basis

SCHOOL BUS ACCIDENT

Background

In the event of a school bus accident the primary responsibility of all staff is to ensure the safety of students, other personnel and the public. Mitigating loss and damage to property is a second concern. Because accident situations are variable, it is recognized that procedures must allow sufficient flexibility to accommodate this. Staff members are expected to act as a reasonable parent and exercise best judgment as to what is to be done. The following procedures are established to provide guidance for this decision making.

Procedures

1. Contact the Transportation Supervisor immediately. The Transportation Supervisor will contact all emergency personnel required, Superintendent, Principal and parents. Specific instructions will be issued.
2. The driver shall check for injuries and administer or arrange for first aid as quickly as possible.
3. If there is danger of fire, the driver shall remove all passengers to a safe distance from the vehicle, ensuring the ignition key is in off position. In the winter it is important to protect passengers from the cold weather.
4. In the event that the RCMP are not available, and another vehicle is involved in the accident, regardless of fault, the bus driver shall obtain the following from the other driver:
 - 4.1 Name,
 - 4.2 Driver's license number,
 - 4.3 Vehicle make,
 - 4.4 Serial number,
 - 4.5 License plate number, and
 - 4.6 Insurance agent and address.
5. Where medical attention is not required, passengers may be dispersed as follows:
 - 5.1 If enroute to School, passengers are to be delivered to School as soon as possible and the Principal is to be advised that they were involved in an accident.
 - 5.2 If enroute home, passengers are to be delivered home as soon as possible and the parents advised that they were involved in an accident.

6. Since it is not possible to foresee all circumstances which may occur in an accident, it may be necessary to deviate from some of these instructions. In any event good common sense and reasonable actions must be used.

5. Care shall be taken that nothing is done to imply an employment or contractual relationship between the driver and the School.
